Overview

Hi guys ! I'm Hồ Đức Thắng, I was born in 2000 and I'm from Vung Tau city. I'm Front-end Developer.

- 1 year experience of working as a web developer at Ho Chi Minh city with good communication and ability to learn skills.

- Strength: Front-end technology.

- Familiarity with Graphql, RESTful APIs.

- Familiarity with Agile/Scrum

- Experience in: HTML, CSS, JavaScript ES6, ReactJs, Typescript, Other libraries such as: Material UI , Ant design, Tailwind CSS, React toolkit, React hook form, React router dom, etc.

- Experience in using Nginx in application deployment.

- Experience in CI / CD configuration of application on TeamCity

- Know to use source code management tools: Git.

- Know to use □project management tools : Jira.

- Know to use Graphql management tools: Hasura.

- Ability to learn and apply new technology.

- Current working location: TP. Ho Chi Minh, Viet Nam.

I always put my heart and soul into every single website that I develop and want to learn new things and improve my skills.

I guess that's all I have to share about myself. Thank you for reading!

Work experience

11/2021 -7/2022

PITEK TECHNOLOGY JOINT STOCK COMPANY

Company introduction

Starting operations in early 2021, Pitek Technology Joint Stock Company (Pitek JSC) provides products and modern technology services to help customers who are approaching new technology trends have effective experiences tailored to their needs. We are working to help customers solve problems with smart technology systems and professional staff. All projects and processes are simplified, time optimized with the best quality of products.

Front-end Developer

Convert to HTML,CSS from Figma.

Handle logic and integrated API.

Communicate with other departments to improve performance and interface.

Improve code and fix bug.

Report work to leader.

The projects of the company that I have participated in such as :

ECOE Web Admin (3 member) **:** A real estate web application of the ECOE joint stock company. The application is built using ReactJS and Material UI libraries. It is used by the administrator. Admin can login to manage apartments, real estate, customers, employees, home vouchers, statistics, etc.

Human Resources Manager (3 member)**:** An internal project of PITEK technology joint stock company. Built using Nextjs framework and Tailwind CSS library. It is used to manage employees in the company, the number of leave days. Allow employees to log in to apply for leave and related leaders to log in to view leave information and review leave

7/2022 - 11/2022
